

**Task : Fg stock Summary Bulk Purchase Issue in saving weight in it**

**Team**

- **Documentation: Trupti**
- **Stakeholder: Kuldeep**
- **Developer: Mahesh**
- **Tester: Vidhi**
- **Support: Kuldeep**

**Purpose and Goal:**

**Purpose**

Customer checks daily stock in it date wise but in the case of bulk items if I do tagging in current date and check stock of bulk in previous date , the weight gets updated in previous date.

**Goal**

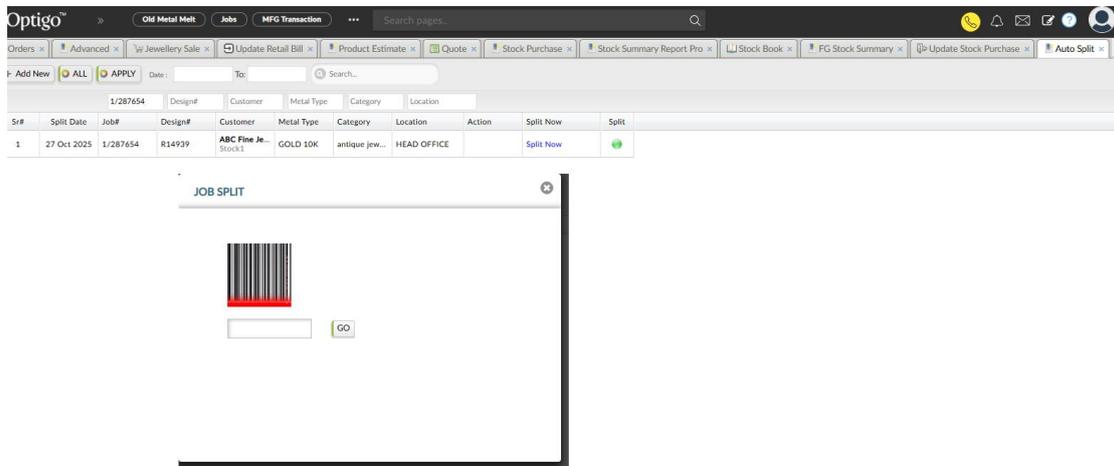

To provide error free report to customer to view daily stock date wise .

## Current Flow and Storyline:

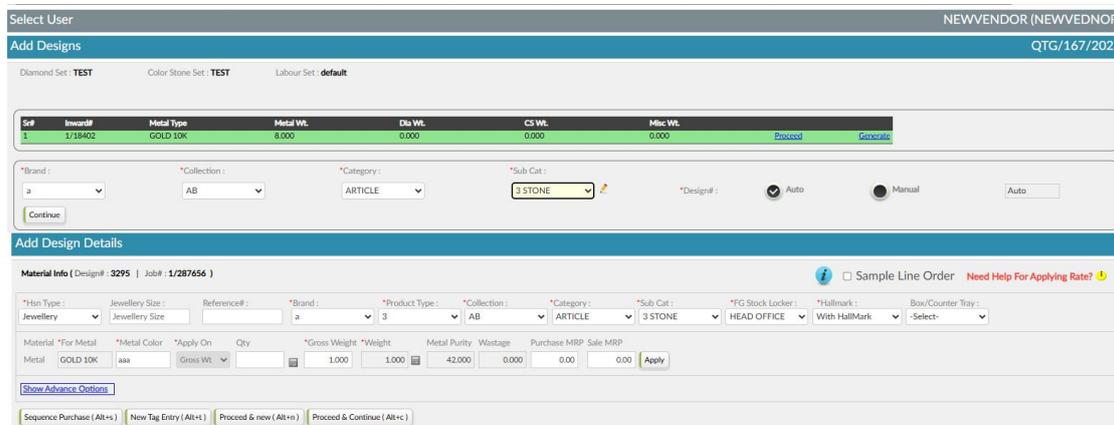

Currently in this report it shows all the items as currently existing in stock book date wise . It shows bulk job entries too.

Step1 : Scan the job which are in stock book and in autosplit and make autosplit on

Books keeping>sales book >autosplit

Step3 : Do tagging it in through quick tagging ( Books keeping>purchase book > quick tagging) in date 28-oct-2025

Now check fg stock summary with date search 26-oct-25

Output weight get changed in it .
